19.0 SP4 Version News

Alf Plugin

Released on: June 30, 2020

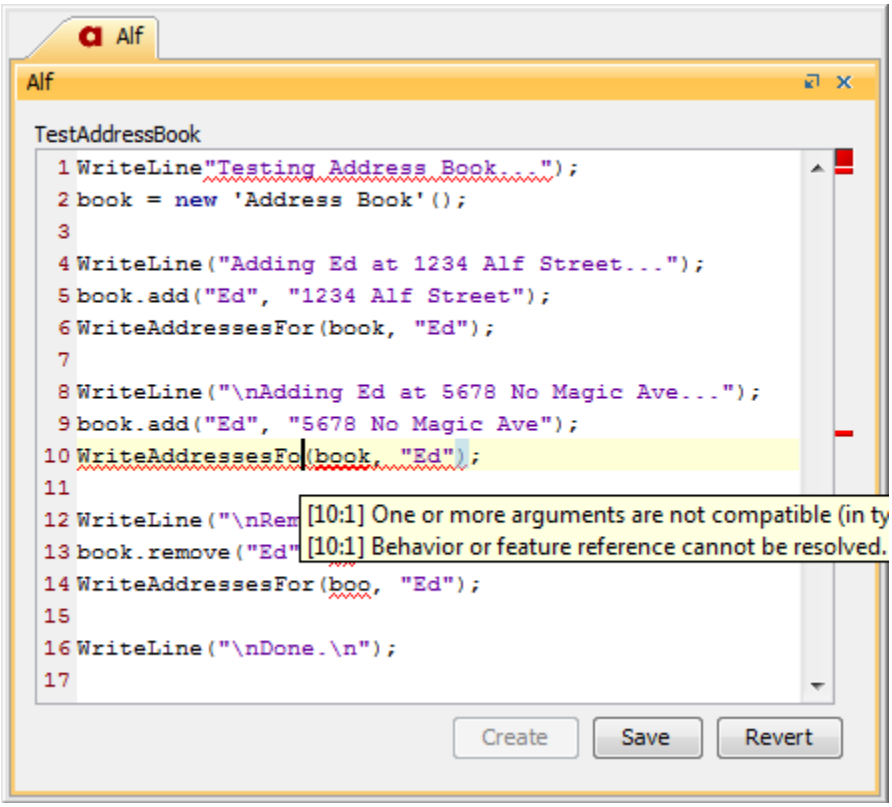
The Alf Plugin version 19.0 SP4 provides combined syntax error and constraint violation highlighting in the Alf Editor.

What you get:

- Highlighting Syntax Errors and Constraint Violations Together in the Alf Editor

Highlighting Syntax Errors and Constraint Violations Together in the Alf Editor

Previously, the Alf Editor only ran constraint checks if there were no syntax errors in the text being edited. Now the Editor attempts to run constraint checks even when there are syntax errors, so syntax errors and constraint violations can be highlighted together.



Alf code with both syntax errors and constraint violations highlighted.
