Creating Blank UPDM Project

You can create the blank UPDM project. In that project, there will be no predefined structure, so you will be able to make your own.

To create a blank project

1. Do one of the following:
   - Select **File**>**New Project**.
   - On the main toolbar, click the **New Project** button.
   - Press Ctrl+N.

2. In the **New Project** dialog, under **Enterprise Modeling**, select **Blank UPDM Project**.
3. Specify name, location, and other preferences if needed.
4. Click **OK** when you are done.

By default, DoDAF 2.0 Architectural Framework will be selected in the **General** property group. You can select any of the available Architectural Frameworks.

> ⓘ You can always change the Architectural Framework in the **Project Options** dialog **General project options** group.
