

MODAF Strategic Viewpoint

The Strategic View (StV) shows the elements that are part of StV-1 through StV-6. The Strategic Elements are used in the Strategic View that provides an overall Enterprise Architecture assessment of the Capabilities and their relationships facilitating Capability Management (e.g. capability introduction, integration, re-alignment and removal). While an Enterprise will have a number of UPDM Architecture Descriptions that have the Operational, System, Technical Standards, and All Views, only one Strategic View will exist across a number of Architecture Descriptions.

The views of this viewpoint are described in the following sections:

- [MODAF. StV-1 Enterprise Vision](#)
- [MODAF. StV-2 Capability Taxonomy](#)
- [MODAF. StV-3 Capability Phasing](#)
- [MODAF. StV-4 Capability Dependencies](#)
- [MODAF. StV-5 Capability to Organization Deployment Mapping](#)
- [MODAF. StV-6 Operational Activity to Capability Mapping](#)
