Creating L4-P4 Systems Function to Operational Activity Traceability Matrix

The Systems Function to Operational Activity Traceability Matrix (L4-P4) addresses the direct and indirect (using the implied relations) linkage between Functions described in P4 and Operational Activities specified in L4.

To create a L4-P4 Systems Function to Operational Activity Traceability matrix

- 1. Specify the Row Scope (Functions).
- 2. Specify the Column Scope (Operational Activities).
- 3. Click the Rebuild button.

Functions implements Operational Activities using the Implements relationship.

To map a Function to an Operational Activity

1. Click the intersection between the desired elements.
