

# Annotation and annotation property

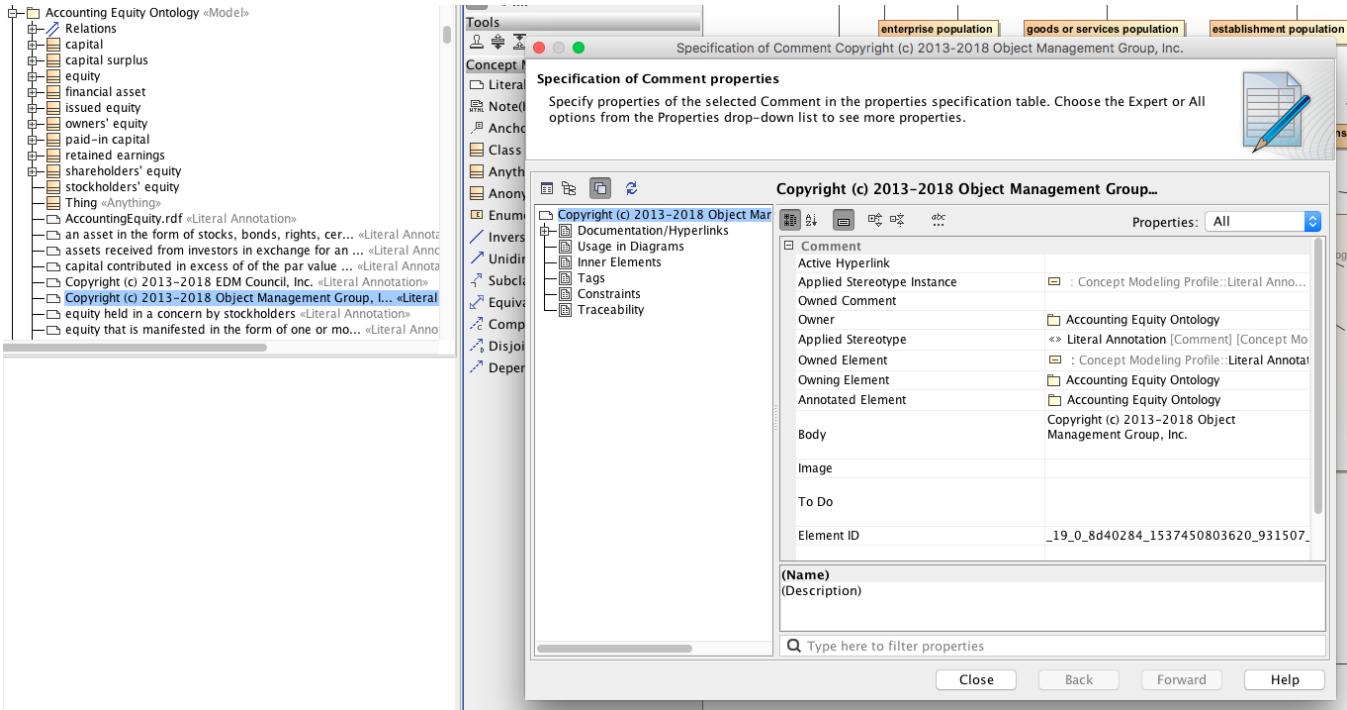

A class with annotation and annotation property.

```
Ontology(<http://nomagic.com/ontology/example-case/case-25>
    Declaration(Class(:Book))
    Declaration(Class(:Item))
    Declaration(Class(:Multimedia))
    Declaration(    AnnotationProperty(<http://spec.edmcouncil.org/fibo/FND/Utilities/AnnotationVocabulary
/explanatoryNote>))
        AnnotationAssertion(rdfs:label :Book "Book"@en)
        SubClassOf(:Book :Item)
        AnnotationAssertion(rdfs:label :Item "Item"@en) AnnotationAssertion(<http://spec.edmcouncil.org/fibo/FND
/Utilities/AnnotationVocabulary/explanatoryNote> :Item "This represents any item physical or electronic that
can be lent out by a library."@en)
        AnnotationAssertion(rdfs:label :Multimedia "Multimedia"@en)
        SubClassOf(:Multimedia :Item)
    )
)
```

AVAILABLE FROM 19.0 SP1

The following OWL and figure show an annotation containing a copyright notice being imported into CCM as the annotation of the corresponding concept model.

```
<owl:Ontology
    rdf:about="https://spec.edmcouncil.org/fibo/ontology/FND/Accounting/AccountingEquity/">
    <sm:copyright>Copyright (c) 2013-2018 Object Management Group, Inc.</sm:copyright>
    <rdfs:label>Accounting Equity Ontology</rdfs:label>
    ...
</owl:Ontology>
```

The annotation of the corresponding concept model is imported into CCM.
