

# Creating PV-2 diagram

When you choose to create PV-2 diagram, the **PV-2 Creation Wizard** opens.

To create a PV-2 diagram

---

1. Right-click the PV-2 Package and select **Create Diagram > PV-2 Project Timelines**.
2. Follow the steps of the **PV-2 Creation Wizard**.
3. Click **Finish** when you are done.

If you do not wish to use the **PV-2 Creation Wizard** next time, clear the **Show the wizard next time, when I create PV-2 Project Timelines** check box.

To create a PV-2 diagram manually when **PV-2 Creation Wizard** is disabled

---

1. Right-click the PV-2 Package and select **Create Diagram > PV-2 Project Timelines**.
2. Type the diagram name.
3. Press **Enter**.  
The blank **PV-2 Project Timelines** diagram is created.

To restore the usage of the **PV-2 Creation Wizard**

1. Select **Options > Environment**.
2. In the **Environment Options** dialog select the **UPDM** options group.
3. In the General properties, set the **Show PV-2/AcV-2/NPV-1 Creation Wizard each Time Creating New Chart** property value to *true*.
