

# Editing long textual values

In case of editing a value that consists of several words, the value cell may seem too short. In order to avoid this inconvenience you can edit the property value in a dialog specially designated for typing long values.

- [Editing long textual values](#)

To edit a textual value consisting of several words

---

1. Click an appropriate property value cell.
2. Click the Edit button (see the highlighted button in the following figure).
3. In the opened dialog, type a value and click **OK**.

There are some textual properties, whose values can keep text formatting settings. You can use the [HTML editor](#) in such cases. To use the [HTML editor](#), select the **HTML** check box in the dialog opened for editing this special kind of textual property value.
