

Downloading installation files

2021x and later

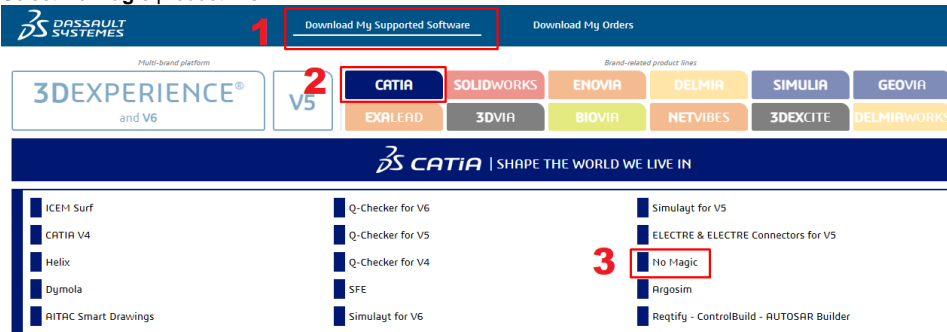

2021x installation files are available on the 3DS software download page <https://www.3ds.com/support/download/>.

 If you do not have access to the 3DS software download page, please contact your sales representative.

How to download your software

To access your download page

1. Login to <https://software.3ds.com/> with your 3DEXPERIENCE ID. By default, you will be redirected to **Download My Supported Software**.
2. Select **CATIA** brand.
3. Select **No Magic** product line.

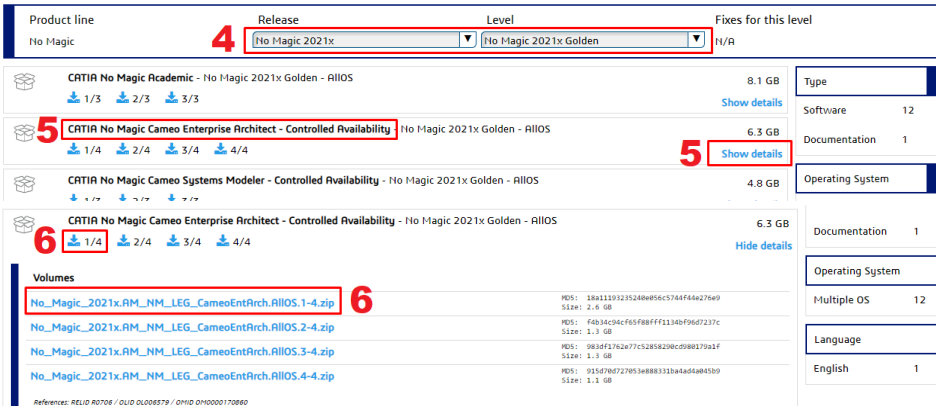

The screenshot shows the 3DEXPERIENCE software download interface. At the top, there are two buttons: 'Download My Supported Software' (highlighted with a red box and '1') and 'Download My Orders'. Below this, there are two rows of brand-related product lines. The first row includes CATIA, SOLIDWORKS, ENOVIA, DELMIA, SIMULIA, and GEOVIA. The second row includes EXALEAD, 3DVIA, BIOVIA, NETVIBES, 3DEXCITE, and DELMIARWORKS. The 'CATIA' brand is selected. Below the brand selection, there is a list of product lines. The 'No Magic' product line is selected and highlighted with a red box and '3'. Other product lines include ICEM Surf, CATIA V4, Helix, Dymola, RITAC Smart Drawings, Q-Checker for V6, Q-Checker for V5, Q-Checker for V4, SFE, Simulagt for V6, Simulagt for V5, ELECTRE & ELECTRE Connectors for V5, Argosim, and Reqtify - ControlBuild - AUTOSAR Builder.

4. Select **Release** (e.g. major version) and **Level** (e.g service pack).
5. Browse for required media files and click **Show details**.

 To find out the content of the volumes, refer to the [3DS Media list for 2021x release](#) page.

6. Click the **download button** or select the required **volume** file to start the download.

The screenshot shows the 3DEXPERIENCE software download interface. At the top, there are two dropdown menus: 'Release' (highlighted with a red box and '4') and 'Level' (highlighted with a red box and '4'). The 'Release' dropdown is set to 'No Magic 2021x' and the 'Level' dropdown is set to 'No Magic 2021x Golden'. Below the dropdowns, there is a table of software products. The first row is 'CATIA No Magic Academic - No Magic 2021x Golden - AIIOS' with a size of 8.1 GB. The second row is 'CATIA No Magic Cameo Enterprise Architect - Controlled Availability - No Magic 2021x Golden - AIIOS' with a size of 6.3 GB. The third row is 'CATIA No Magic Cameo Systems Modeler - Controlled Availability - No Magic 2021x Golden - AIIOS' with a size of 4.8 GB. The fourth row is 'CATIA No Magic Cameo Enterprise Architect - Controlled Availability - No Magic 2021x Golden - AIIOS' with a size of 6.3 GB. The 'Show details' button for the second row is highlighted with a red box and '5'. Below the table, there is a 'Volumes' section. The first volume is 'No_Magic_2021x.RM_NM_LEG_CameoEntArch.AIIOS.1-4.zip' with a size of 2.6 GB. The second volume is 'No_Magic_2021x.RM_NM_LEG_CameoEntArch.AIIOS.2-4.zip' with a size of 1.3 GB. The third volume is 'No_Magic_2021x.RM_NM_LEG_CameoEntArch.AIIOS.3-4.zip' with a size of 1.3 GB. The fourth volume is 'No_Magic_2021x.RM_NM_LEG_CameoEntArch.AIIOS.4-4.zip' with a size of 1.3 GB. The 'Download' button for the first volume is highlighted with a red box and '6'. The 'Show details' button for the first volume is also highlighted with a red box and '6'.

If you have No Magic login credentials, you can access the installation files, including the FlexNet license server utilities as well as the Demo and Reader versions of the modeling tool, at nomagic.com.
