

# Creating Personnel Taxonomy diagram

Typical and Actual organizational relationships are modeled in Personnel Taxonomy diagram.

To create a typical form of Personnel Taxonomy diagram

---

1. Create Organizations, Posts, and Persons.
2. Display the generalizations (general-specific relationships) and compositions (whole-part relationships) between them.

To create an actual form of Personnel Taxonomy diagram

---

1. Create Actual Organizations, Actual Posts, and Actual Persons.
2. Relate Actual Organizational Resources with Actual Organization Relationship.

You can display:

- the Competence of the Organizational Resources.
- the Operational Resource that is in charge of others using the Commands relationship.
