

Removing projects

To remove a project

1. From the main menu, select **Collaborate > Projects**. The **Manage Projects** dialog opens.
2. Select the project you want to remove.
3. Click **Remove**.

4. In the dialog that opens, select **Yes**. The project will be removed from Teamwork Cloud.

Removed projects are not deleted from the Teamwork Cloud database. To permanently delete resources from the database, use the [Data Manager](#) tool.
