

Adding roles

To add a role to a user or users group

1. On the **Users application**, click the user you want to assign a role to. The **User** pane will open.
2. Go to the **Roles** card and click **Change** button.
3. In the open screen, select the **Add role** tab and start typing a role name in the search box.
4. Select the role you want to add from the list.
5. When the role appears in the **Assigned roles** list, optionally set a custom scope for the role. Otherwise move to the next step.

6. Click  **Unknown Attachment** to save the changes.
