

Getting resource links

If you want to share a Teamwork Cloud project or Cameo Collaborator for Teamwork Cloud document link, you can get it as described below.

To get a Teamwork Cloud project link

1. Open the Resources application and go to the category where the project is located.
2. Click  next to the project, and select **Get project link**.
3. When the window with the project link opens, click **Copy**.

Once you complete the steps above, the link to the project is copied to your clipboard.

To get a Cameo Collaborator for Teamwork Cloud document link

1. Open the Resources application and go to the category where the project is located.
2. Click  next to the project, and do one of the following:
 - Select **Get resource link** to if you want to get the link for registered users.
 - Select **Get public resource link** if you want to share the link publicly.
3. When the window with the project link opens, click **Copy**.

Once you complete the steps above, the document link is copied to your clipboard and you can share it with reviewers.
