

Escalation Start Event

Description

An Escalation Start Event implements measures to expedite the completion of a business Activity.

This event displays either of the following on a diagram:

- An Escalation Start Event name if the name is specified.
- An Escalation Code property value if the name is unspecified.

 An Escalation Start Event triggers an in-line Event SubProcess only.

Notation

- Interrupting Escalation Start Event

- Non-interrupting Escalation Start Event
