

# Security Parameters

## Description

The Security Parameters (Sc-Pm) domain depicts the measurements of security elements.

The intended usage of the Security Parameters (Sc-Pm) domain includes:

- Definition of performance characteristics and measurements.
- Identification of non-functional requirements.

## Implementation

The Security Parameters (Sc-Pm) domain is represented by:

- [Environment diagram](#)
- [Typical Measurements table](#)
- [Hierarchical Typical Measurements table](#)
- [Actual Measurements table](#)
- [Hierarchical Actual Measurements table](#)
- [Security Parametric. Operational diagram](#)
- [Security Parametrics. Resource diagram](#)
- [Actual Measurements \(.xlsx\)](#)
