Working with Risks to Assets Mapping Matrix

The Risks to Assets Mapping Matrix (Sc-Tr) shows which risks are applicable to Asset Roles. The Rows of this matrix are Risks and the Columns are Assets.

To build the matrix

- 1. Specify the Row Scope (Risks);
- Specify the Column Scope (Assets);
- 3. Click the Refresh button.

To map a Risks to an Assets

- Double-click the intersection between the desired elements.
- Right-click the intersection between the desired elements and select Affects.

To remove the relation from the matrix

• Double-click a full intersection between the desired elements.
