Realized Strategic Exchange wizard

To open the **Realized Strategic Exchange** wizard

- Do one of the following:

  - On the diagram pane, select the Actual Enterprise Phase and on the smart manipulator toolbar, click ⊩.

  - Click ⊩ Strategic Exchange and on the diagram pane, connect Actual Enterprise Phases.

The **Realized Strategic Exchange** wizard consists of only one step:

1 Strategic Exchange creation

Strategic Exchange creation

In this step, you create a new Strategic Exchange by specifying its name, conveyed Item, and direction of a Strategic Exchange.

You can choose one or more Conveyed Items from the list or create new ones. When creating a new Conveyed Item, choose the type depending on the viewpoint:

Viewpoint	Conveyed Item Type
Strategic	Strategic Information
Security	Security Enclave
	Resource Mitigation
Resources	System
	Software
	Resource Artifact
	Technology
	Natural Resource
	Resource Service
	Resource Architecture
	Capability Configuration
Projects	Project

Personnel	Post
	Responsibility
	Person
	Organization
Parameters	Geo Political Extent Type
Operational	Know Resource
