

# Creating NCV-3 diagram

When you choose to create NCV-3 diagram, **NCV-3 Creation Wizard** opens.

To create a NCV-3 diagram from the wizard

---

1. From the **Diagrams** menu, select **Create Diagram**.
2. In the open window, find and select **NCV-3 Capability Phasing** diagram.
3. In the **NCV-3 Capability Phasing** dialog, click **Add**. **NCV-3 Creation Wizard** opens.
4. Follow the steps of the wizard.
5. Click **Finish** when you are done.

If you do not wish to use the NCV-3 Creation Wizard next time, clear the check box near "Show the wizard next time, when I create NCV-3".

Also you can disable the wizard. Go to **Options > Environment**. In the **Environment Options** dialog go to **UPDM** tab. In the **General** properties, set **Show CV-3/StV-3/NCV-3 Creation Wizard each Time Creating New Chart** to false.

To create a NCV-3 diagram manually

---

1. From the **Diagrams** menu, select **Create Diagram**.
2. In the open window, find and select **NCV-3 Capability Phasing** diagram.
3. In the **NCV-3 Capability Phasing** dialog click **Add**.
4. Specify the diagram name and create or select the owner of the diagram.

You can select as a diagram owner a view or viewpoint that is already created in the UAF project template.

5. Click **OK**. The blank NCV-3 diagram is created.
