# Selecting an ordered list of annotation properties

Concept Modeler has another feature allowing you to select an ordered list of annotation properties to be displayed in the Natural Language Glossary.

To select an ordered list of annotation properties in the Natural Language Glossary

1. From the main menu, select **Options** > **Project**. The **Project Options** dialog opens.
2. In the tree structure on the left, expand **General** and select **Concept Modeling**.
3. Click at the right side of the **Natural Language Glossary annotation property list** option and select ⋯.

The **Select Property «Annotation Property»** dialog opens.

4. Select one or more annotation properties (hold **CTRL** to multi-select properties) and click [+] to add the selected properties.
5. Click **OK**.

After you generate a report from the project that you have selected a number of annotation properties from the **Natural Language Glossary annotation property list** option, the selected annotation properties are listed in the generated Natural Language Glossary report.

Suppress Model-Generated Definitions: ☐

CCM Natural Language Glossary

Item

Model-Generated Definition:
