

Managing long-running tasks

Cameo Collaborator for Teamwork Cloud has a task manager that you can use to monitor and manage long-running tasks, such as exporting documents to PDF or HTML.

To open Task Manager

1. Open the Resources web application or a Cameo Collaborator document.
2. In the top right corner of the screen, click  and select **Task manager**.
3. In the **Collaborator** tab of the **Task manager** dialog, do one or several of the following actions:

Simulation tasks

If you work with the [server-side simulation](#) in Teamwork Cloud, select the Simulation tab in the task manager to manage active simulations.

- View the status of the active long-running tasks.
- Click  next to a completed task to download the [exported Cameo Collaborator document](#).
- Click  next to a task to remove it from the task manager.
