

# Opening projects in Collaborative Lifecycle app

You can use a modeling tool to open a server project in the Collaborative Lifecycle app on the 3DEXPERIENCE Platform.

To open a project in the Collaborative Lifecycle app

---

1. [Open a server project](#).
2. In the main menu, select **3DEXPERIENCE > Open in Collaborative Lifecycle App**.

After completing the steps above, the project is opened in the Collaborative Lifecycle app which provides the commands to manage the lifecycle of a project (from creation to deletion).
