· Providing an easy-to-remember link

After a document is published to Cameo Collaborator for Teamwork Cloud, you can share it with reviewers by providing a link to a Cameo Collaborator document.

Sharing a published model is the second step in the workflow for reviewing models and providing feedback.

To get a link to a Cameo Collaborator for Teamwork Cloud document

- 1. Go the Resources application in one of the following ways:
  - In an internet browser, go to http(s)://<domain\_name>:<port>/webapp/resources.

Not supported internet browsers does not support Internet Explorer. Use a different internet browser instead.

- In the app bar of the document portal, click and select Resources.
- 2. Go to the category containing the Cameo Collaborator document you want to share.
- 3. Click next to the document, and do one of the following:
  - Select Get resource link to if you want to get the link for registered users.
  - · Select Get public resource link if you want to share the link publicly.

Prerequisite for public links
public links to work, the Guest user needs to be configured for Teamwork Cloud. For more information, refer to Setting up Guest
user

4. When a window with the link to the published model opens, click Copy.

After you complete the above steps, the link to a document is copied to your clipboard and you can share it with reviewers.

## Providing an easy-to-remember link

When you want to share a Cameo Collaborator document and provide reviewers with an easy-to-remember link, you can rewrite the link to the document by using a document name in it.

To get an easy-to-remember link to a published model

- 1. Get a link to a published model, as described above. The link should look like this <domain>:<port>/webapp/collaborator/document/<document
- 2. After pasting the link to share it with reviewers, replace the document ID with the name of the published document and add .CC at the end of the
