Creating relation map

To create a relation map

1. Select an element, for which you need to create the relation map. This element is the context of the relation map.
2. Do one of the following:
   - From the main menu, select **Diagrams** > **Create Diagram**. Type "rel" and press **Enter**.
   - On the main toolbar, click the **Create Diagram** button. Type "rel" and press **Enter**.
   - Press Ctrl+N. Type "rel" and press **Enter**.
   - On the **Analyze** menu, click **Create Relation Map**.
   - Right-click the element and from the shortcut menu select **Create Diagram** >**Analysis Diagrams** > **Relation Map**.
   - Right-click the element and from the shortcut menu select **Related Elements** >**Create Relation Map**.

The newly created relation map opens on the right side of the application window.

ⓘ
- The context of the relation map automatically becomes the owner of it when using any of the last two approaches.
- When using other approaches, you can specify another element as the owner.
- The actions relevant for diagrams are valid for relation maps as well.
