## Quickly navigating through conflicting changes

You can quickly navigate through the conflicting changes in the **Merged Result** tree/list. Use the filter on the right of the **Merged Result** tree/list to filter conflicting changes by type. You can select to filter conflicting changes resolved by the user or resolved automatically. Moreover, click conflicting changes notification and it will filter conflicting changes resolved automatically.

A Show conflicting changes (2) accepted automatically by choosing target — Conflicting changes notification 智 Tree 皆三 List
