

# C8 Planning Assumptions

## Description

The C8 Planning Assumptions Viewpoint is concerned with the identification and description of assumptions that have been made for the implementation of capabilities.

## Implementation

The **C8 Planning Assumptions** view is represented by:

- [C8 diagram](#).
- [C8 table](#). The table identifies and describes assumptions that have been made for the implementation of capabilities.
- [C8 Planning Assumptions Parametric](#) diagram

## Constraint owner

You can choose where all the constraints will be stored through the **Project Options**.

To select a constraint owner

- 
1. In the main menu, click **Options > Project**. The **Project Options** dialog opens.
  2. Go to **General > UAF**, and in the **Default Constraint Owners** property group, choose a needed owner.
