

Working with A8 Standards Taxonomy Table

The **Standards Taxonomy Table (A8)** provides all the available technical and non-technical standards, guidances, and policies.

To add a new Protocol, Protocol Stack, or Standard in the Standards Taxonomy table

1. In the table toolbar, click the **Add New** button and choose Protocol, Protocol Stack, or Standard. A new row is added.
2. Double-click the cells to enter a Name, Definition, and URI for the Protocol, Protocol Stack, or Standard.

To add an existing standard in the Standards Taxonomy table

1. In the diagram toolbar, click the **Add Existing** button.
2. In the **Select Standard** dialog, choose the desired Protocol, Protocol Stack, or Standard.
3. Double-click the cells to enter a Name, Definition, and URI for the Protocol, Protocol Stack, or Standard.
