

Exporting tables to Excel spreadsheets

You can export an active table into the Excel, HTML or CSV formats.

To export a table

- 1. On the table toolbar, click the **Export** button.
- 2. In the **Choose file** dialog, specify its location, name, and type (*.xlsx, *.csv, *.html).
- 3. Click **Save**.
The table is exported.

SV-6 table before export

#	Exchange ID	Resource Exchange Item	Sending System Resource	Receiving System Resource	Producing Function	Consuming Function
1	RI11	 IE22 Track	 ESM System	 Link 16	 Send Track Information	 Receive Track Information
