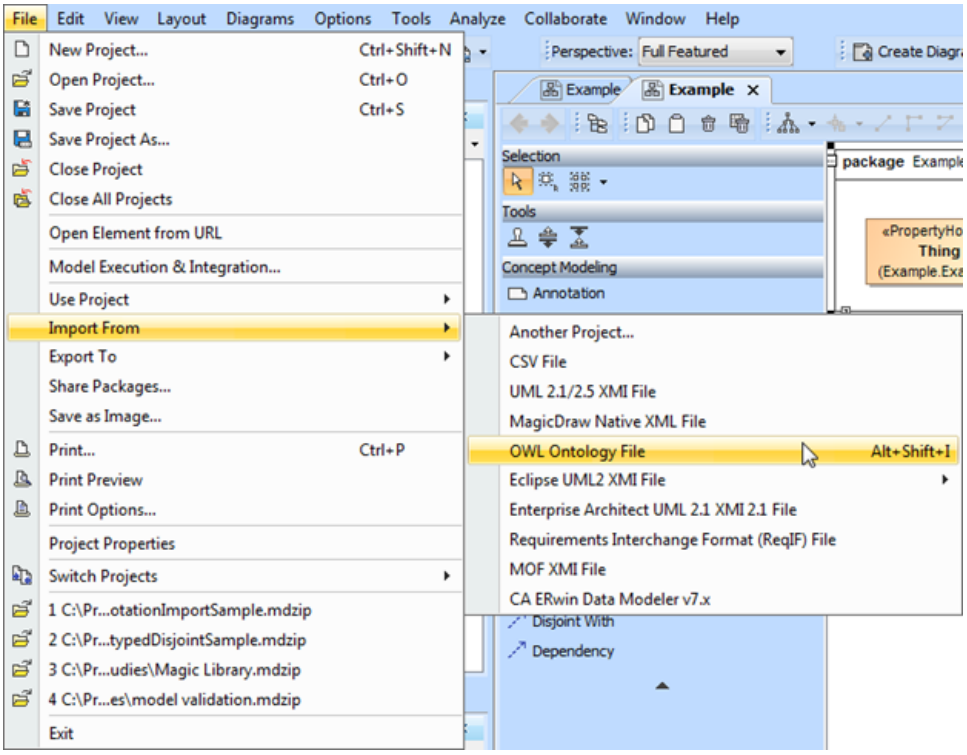
Importing an ontology that defines annotation properties

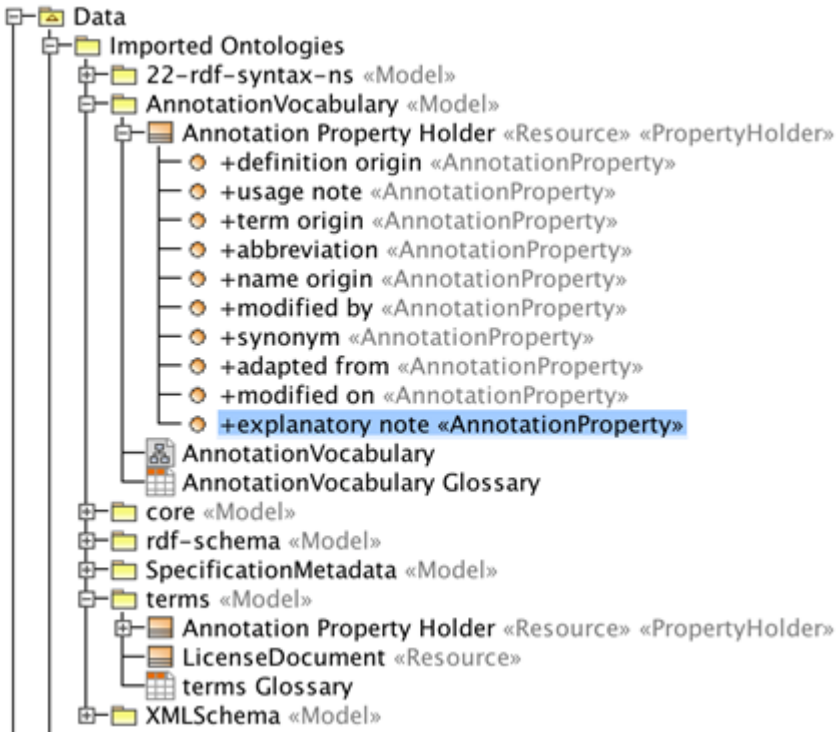
To import an ontology into an existing concept model

1. Select **File** > **Import From** > **OWL Ontology File**.



Importing an OWL ontology file to the Concept Modeler.

2. Browse and select your OWL Ontology file.
3. Annotation properties imported from your OWL ontology will be displayed in the **Containment tree** under **Imported Ontologies** as shown in the following figure.



The imported Annotation Property is highlighted in the Containment tree.
