

Using a path variable to share OWL import catalog files

To use a path variable to share OWL import catalog files

1. Click **Options > Project**.

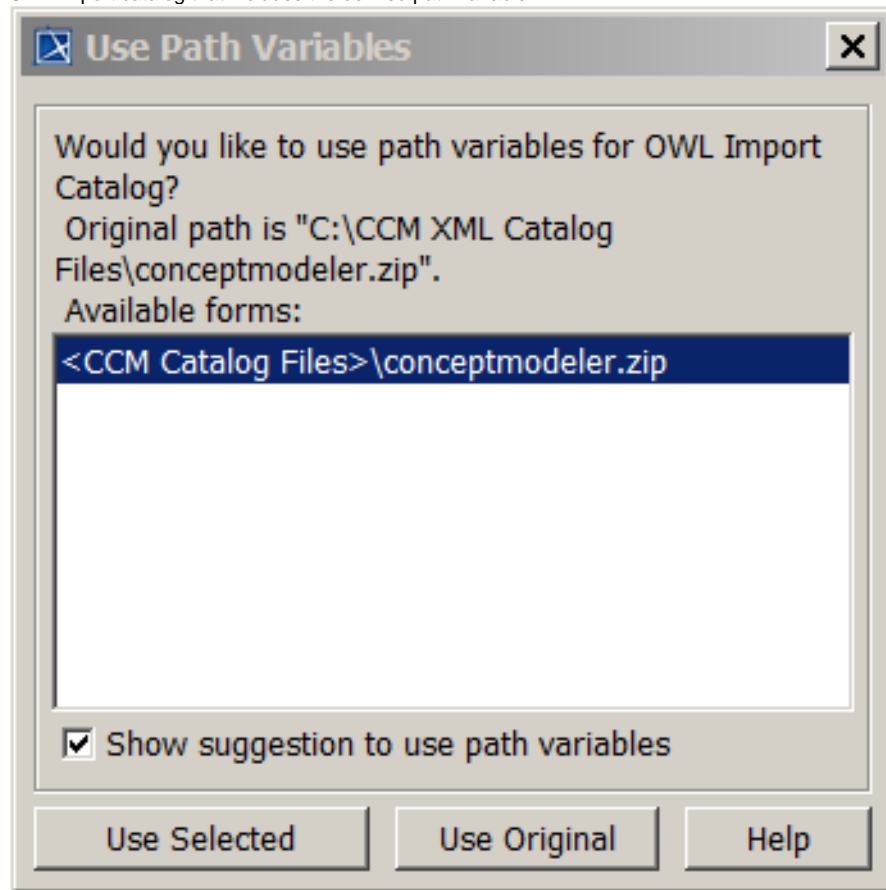

2. In the left column, select **General > Concept Modeling**.
3. Click in the field next to **OWL Import Catalog**.
4. Click the ... button.
5. Select the XML catalog file.

6. Click **Open**.

7. Select the path to the OWL import catalog that includes the defined path variable.

8. Click **Use Selected**.
