

# Setting the OWL import catalog in MagicDraw

The OWL import catalog must be set for a MagicDraw project if an XML catalog is used to import an ontology model.

To set the OWL import catalog to the XML catalog file for the desired external ontologies

---

1. Click **Options > Project**.

The Concept Modeler's Options menu.

2. Select **General > Concept Modeling**.
3. Click in the field next to **OWL Import Catalog**.
4. Click the  button.
5. Select the XML catalog file.
6. Click **Open**.

 **Path Variables**  
The Path variables dialog window may appear. If it does, click **Use Selected**.

8. Click **OK**.
