

Opening Cameo Collaborator for Teamwork Cloud

Once you install Cameo Collaborator for Teamwork Cloud, you can access all published documents via the Resources application in a web browser.

To open Cameo Collaborator for TWC (the Resources application)

1. In an internet browser, go to `http(s)://<domain_name>:<port>/webapp/resources`. By default, Cameo Collaborator for Teamwork Cloud uses the 8443 port.

Not supported internet browsers

Cameo Collaborator for Teamwork Cloud does not support Internet Explorer. Use a different internet browser instead.

2. When the authentication page opens, enter your user name and password to sign in.
3. On the welcome page, click **Open** on the [Resources application](#) which allows accessing Cameo Collaborator documents.
