Disabling inbound network activity

Note that after disabling inbound network activity, you will not be able to open the modeling tool Help or submit an issue.

> ⊘ **Useful information**
>
> If you disable inbound network activity, double-clicking a project file (.mdzip) opens the project in a new modeling tool window.

To disable inbound network activity

1. Go to *<modeling tool installation directory>\bin* and open the properties file, e.g., *magicdraw.properties.*
2. In the JAVA_ARGS line, add the following argument:

   ```
   -DDISABLEINBOUNDCON=true
   ```

3. Save and close the file.
