

Creating PV-1 matrix

It is recommended to create an [OV-4](#) before creating a PV-1.

The PV-1 is an editable matrix displaying the responsibility of Actual Organizational resources (Organizations or Individual Person Roles) for Projects.

The rows in the PV-1 Responsibility Matrix represent Projects and the columns represent Actual Organizational resources (Organization or Individual Person Roles).

To create a PV-1 matrix

1. Specify the **Row Scope** (Projects).
2. Specify the **Column Scope** (Organizations and Individual Person Roles).
3. Click the **Rebuild** button.
