

Creating Service Channel Summary Table

To create a Service Channel Summary Table

1. Right-click the Package, select **Create Diagram**, point to **UPDM Other Diagrams**, and then click **Service Channel Summary Table**.
2. Fill in the table:
 - Create a new Service Channel. Click the **Add New** button. The [New Service Channel wizard](#) opens. Follow the wizard steps to add a new Service Channel.
 - Add an existing Service Channel. Clicking the **Add Existing** button. The **Select Service Channel** dialog opens. Only Service Channels are filtered.
