

Creating Lr Responsibility Matrix

It is recommended to create the [D2 diagram](#) before creating the Lr Responsibility Matrix.

The Lr Responsibility Matrix is an editable matrix displaying the responsibility of Actual Organizational Resources (Actual Organizations or Actual Posts) for Actual Projects.

The rows in of this matrix represent Actual Projects and the columns represent Actual Organizational Resources (Actual Organization or Actual Post).

To create the Lr Responsibility matrix

1. Specify the **Row Scope** (Actual Projects).
2. Specify the **Column Scope** (Actual Organizations and Actual Posts).
3. Click the **Rebuild** button.
