Actual Project Milestone

Description

MODAF/NAF: (ProjectMilestone): An event in a ActualProject (MODAF::Project, NAF::Project) by which progress is measured.

In the case of an acquisition project, there are two key types of milestones which shall be represented using subtypes - IncrementMilestone (MODAF::CapabilityIncrement, NAF::CapabilityIncrement) and OutOfServiceMilestone (MODAF::OutOfService, NAF::OutOfService)

DoDAF: NA

Architecture Framework

MODAF, DoDAF, NAF

Properties

Property	Description
date : ISO8601DateTime[1]	Defines time for a ProjectMilestone.
