

# Displaying Sub Capabilities deleted from Cr diagram

The capability name becomes *Italic* when one or more sub capabilities are deleted from the chart.

To display deleted Sub Capability

---

1. Select the Capability which Sub Capabilities you want to restore.
2. From the selected Capability's shortcut menu, select **Display Deleted From Chart** and do one of the following:
  - Select the Sub Capability you want to be displayed.
  - Select **Display All** to display all deleted Sub Capabilities.
