Creating P8 table

To create a P8 table, do either

- Add a new Resource Constraint by clicking the **Add New** button. The new row in the table is created. Select a constrained Systems Element (Resource Artifact, Software, Capability Configuration, Organization, Post, Function, Exchange Element, Entity Item, Resource Interaction). Fill in the specification cell with an expression that can be written in natural or technical language (for example English or OCL).
- Add the existing Resource Constraints by clicking the **Add Existing** button and select existing Resource Constraints from the model.
