Producing and Consuming Functions dialog

The **Producing and Consuming Functions** dialog allows you to specify or modify producing and consuming Functions for a selected Resource Interaction.

To open the Producing and Consuming Functions dialog

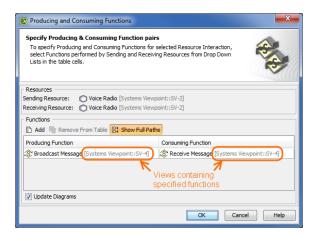

- In the Specification window of the Resource Interaction, click the **Edit** (...) button in the selected **Producing Function or Consuming Function** cell.
- In the SV-6 Systems Data Exchange Matrix, click the Edit (...) button in the selected Producing Function or Consuming Function cell.
- In the Resource Interaction Manager dialog:
 - Click the ${\bf Edit}$ (...) button in the selected ${\bf Producing}$ ${\bf Function}$ or ${\bf Consuming}$ ${\bf Function}$ cell.
 - Click the **Functions** button

The **Producing and Consuming Functions** dialog is embedded in the **Realized Resource Interaction** wizard as a step #2.

Elements of the dialog are described in the following tables.

Вох	Description
Updat e Diagr ams	Select to update all related diagrams. Existing diagrams will be updated by displaying a particular resource interaction as a triangle on every Function Edge connecting producing and consuming function actions. If the specified Producing and Consuming Functions does not exist in any diagram, you will be suggested to create a new SV-4 System Functionality Description Flow (DoDAF), SV-4 Functionality Description Flow (MODAF), or NSV-4 System Functionality Description Flow (NAF) diagram. Producing and Consuming Function actions and the Resource Interaction will be represented in this new diagram.

Button	Description
Add	Click to add a new row for assigning a pair of Producing and Consuming Functions.
Remove From Table	Click to delete a selected Producing and Consuming Functions pair.
Show Full Paths	Click to show views containing specified functions (see the following figure).
	Click once again to hide this information.

To specify a pair of producing and consuming functions

- 1. In the **Producing Function** column of a selected row, create a new value:
 - Click the drop-down arrow to open a list of available functions and select one.

- Click the "..." button to create a new or select a function existing in the model. The Sele
 ct Function dialog opens, wherein you are able to select or create functions.
- Perform the same action described above for the Consuming Function column of the same row.
