

Procedures

Find out the common actions that are usually performed when using tables, matrices, and libraries, or handling the output information, described in the following sections:

- [Creating Blank UPDM Project](#)
- [Managing Project Properties](#)
- [Converting Model between Enterprise Architecture Frameworks](#)
- [Applying military symbols](#)
- [Creating Desired Effects](#)
- [Dragging and Dropping](#)
- [Exporting to PES](#)
- [Filtering Operational Activities and Functions](#)
- [Managing Reports](#)
- [Inheritance, Aggregation, Composition, and Redefinition of Exchanges](#)
- [Instantiating Structures](#)
- [Managing Measurement Sets and Actual Measurements](#)
- [Managing Tables](#)
- [Managing Traceability and Impact Analysis](#)
- [Using Libraries](#)
- [Using SysML Compliance Mode](#)
- [Using Expand/Collapse Internal Structure Compartment](#)
- [Coverage Analysis](#)
- [Implementation Matrix](#)
- [Service Channels Summary Table](#)
- [Service Channels Summary Matrix](#)
