

A1 Meta-Data Definitions

Description

The A1 Meta-Data Definitions view specifies the categories of meta-data tag used throughout the architecture.

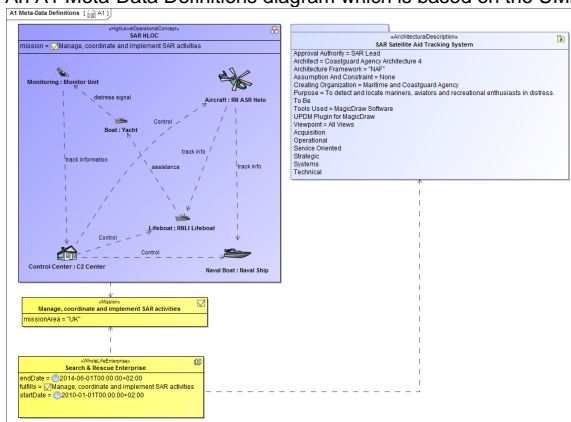

Architectures, particularly large ones, usually require meta-data tags to aid with searching and discovery. NAF specifies some built-in meta-data tags, such as:

- Definition.
- Assumption.
- Finding.
- Recommendation.
- Purpose.
- Approver, Approval Milestone, Modeller, Manager, Responsible Owner, Tool Used.

Implementation

A1 can be represented using :

- An A1 Meta-Data Definitions diagram which is based on the UML Class diagram.

- An A1 MS Word document report.
- A DARS report.

Related procedures

- Generating document based reports
- Generating DARS report in A1
