Displaying Rake icon on symbol

You can use rake icon for faster navigation in the model. The rake icon on the symbol indicates that the appropriate element has an internal structure. Double-click the element to open the internal diagram. The rake icon is shown by default on the symbol.

To hide rake icon

---

1. Right-click the symbol.
2. Select **Symbol Properties** from shortcut menu or press Alt+Enter.
3. Set the **Show Rake Icon** property value to false.
