# DataHub Properties tab

The **DataHub Properties** tab shows the properties (names and values) and associations of a selected node in DataHub Explorer that you can edit and save their value. You can also open, update, or delete the following items in the **DataHub Properties** tab.

- MagicDraw® elements
- DOORS objects and modules
- CSV items
- IBM® Rational® DOORS® Next Generation Artifacts
- HP Application Lifecycle Management projects

To open the **DataHub Properties** tab in MagicDraw®, do one of the following

- Right-click a node in DataHub Explorer and click **Properties**.
- Double-click a node in DataHub Explorer.

The **DataHub Properties** tab opens in MagicDraw®, and the properties of the selected item are displayed.

⚠️ **Note**

- The **DH Links** panel opens when the **DataHub Properties** tab is open.
- Read-only and multi-valued properties cannot be edited. However, you can edit multi-valued properties through the Specifications window.

The table below explains the function of each icon in the **DataHub Properties** tab in MagicDraw®.

Icon	Name	Function
	Categorized View	Shows all property names by category.

	Alphabetical View	Shows all property names in an alphabetical order.
	Show Description	Shows description of each property.
	Expand	Shows all property names and values.
	Collapse	Hides all property names and values.
	Save	Saves changes made to a property name or value. The button is enabled when the value of the property changes.
