What's New in AutoStyler 18.0 LTR SP13

Released on: July 2, 2018

Usability improvements

• Management of the 'Defined Elsewhere' style is enhanced.

Bug fixes

- AutoStyler now only works for UML Class Diagrams.
- Default styles now work properly with all elements.
- Illegal Argument Exceptions no longer appear in the log when drawing new elements on the diagram.
- AutoStyler is now distributed as com.nomagic.autostyler.
- Set defining diagram and Repair styles commands are available only for editable elements.
