

# Making subclasses incomplete

Related Pages:

Unknown macro: 'list-children'

To make subclasses incomplete

- 1. Right-click on the generalization relationship.
- 2. Select **Concept Modeling**.
- 3. Select **Make subclasses incomplete**.

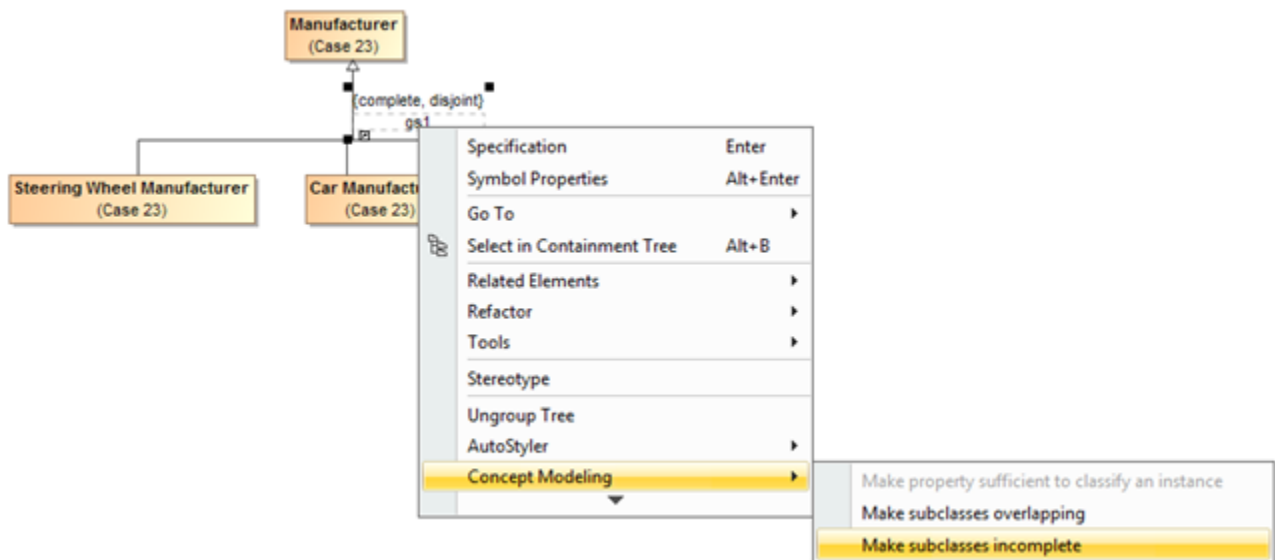

Figure 1: Selecting the Make subclasses incomplete shortcut menu.

**Note**  
Setting the {complete, overlapping} constraint back to the default setting of {incomplete, overlapping} will result in the removal of the generalization set, which has the same meaning.
