

Installation

You can download and install the Excel Import plugin on your computer through the **Resource/Plugin Manager** menu in MagicDraw.

To install Excel Import using Resource/Plugin Manager

1. Click **Help > Resource/Plugin Manager** on the MagicDraw main menu. The **Resource/Plugin Manager** dialog will open. **Note** Specify HTTP Proxy Settings for the connection to access MagicDraw updates and resources.
2. Click the  and select the **Excel Import** check box, and then click .
3. Once the installation is complete, a **Message** dialog informing you that the installation is complete will open. Click **OK**.
4. Restart MagicDraw.

You need to restart MagicDraw upon installing the Excel Import plugin on your computer to allow MagicDraw to load the plugin correctly.

The Excel Import plugin comes bundled with a sample of **UML2.5 Meta Model with attributes**. You can see this sample after you have downloaded the plugin and restarted your MagicDraw (**Help > Resource/Plugin Manager > Samples**).
