

Searching for roles

You can use the search function on the **Role Management** page to search for a specific role on Teamwork Cloud Admin (TWAdmin). This is useful if you have a long list of roles. You can type a role name or a keyword in the **Search by role name** box. If you enter a partial name, all names that match the partial will be retrieved. The search result shows all matching role names on a drop-down list.

To search for a role

1. On the **Role Management** page, type the name of a role you want to find in .
2. Press **Enter** or click  . If the role you are searching matches the role in the TWCloud system, it will appear on the **Role** list.

If the role you are searching is not found, no user role will appear on the **Role Management** page.
