

# Creating PV-1 diagram

It is recommended to create an [OV-4](#) before creating a PV-1.

## To create a PV-1 diagram

---

1. Create Projects.
2. Associate Projects by dragging one project (part) to the other (whole). Alternatively you can specify the whole and part properties.
3. Associate Projects with Organizations ([OV-4](#)) or Individual Person Roles ([OV-4](#)) responsible for them using Organizational Project Relationship.
