

Creating an empty Instance Table

To create an empty Instance Table

1. In the Containment tree, select an element to be the owner of the Instance Table.
2. Do one of the following:
 - From the main menu, select **Diagrams > Create Diagram**. Type “ins” and press Enter.
 - On the main toolbars, click the **Create Diagram** button. Type “ins” and press Enter.
 - Press **Ctrl+N**. Type “ins” and press Enter.
 - Right-click the element and from the shortcut menu select **Create Diagram > Other Diagrams > Instance Table**.

The newly created Instance Table opens on the right side of the application window.
