Displaying Sub Capabilities deleted from CV-3 diagram

The capability name becomes *Italic* when one or more sub capabilities are deleted from the chart.

To display deleted Sub Capability

1. Select the Capability which Sub Capabilities you want to restore.
2. From the selected Capability's shortcut menu, select **Display Deleted From Chart** and do one of the following:
   - Select the Sub Capability you want to be displayed.
   - Select **Display All** to display all deleted Sub Capabilities.
