Modifying criteria through the legend

You can change the colors of the criteria relationships and select other criteria through the map legend.

To change the criteria color

1. Double-click the Legend. The **Relation Criteria** dialog opens.
2. Select the criteria for which you want to change the color.
3. In the **Color** list, select the desired color.
4. Click **OK**, when you are done.

To select other criteria

1. Double-click the Legend.
2. In the **Relation Criteria** dialog choose the **Simple Navigation** property group.
3. Click to clear the **Show Relations Criteria Available Only for Context** check-box. The list of available criteria is displayed.
4. Select the preferred criteria.
5. Click **OK**, when you are done.
